J1
1886

Boston, March 1st, 1886.

Dear Sir:

In again presenting to you our Catalogue we would thank you for past favors, and remind you that at all times we shall endeavor to keep the quality of our goods up to the standard.

The past season we have added another floor to our store, making now four floors and basement.

We would invite all to call and see our large stock, and many things not kept on hand by us before. We shall try from year to year to add new and desirable articles in our line, as the season may demand.

Hoping this will prove of interest enough for you to read it thoroughly, and be profitable both to yourself and us,

We remain,

Respectfully yours,

J. W. BAILEY & SONS.

WE introduce in this catalogue a few styles of our Mouldings; and in addition to these we have a large assortment of Mouldings used by Builders, Cabinet Makers, and Jobbers, in Black Walnut, Cherry, Ash, Pine and White Wood. Our stock is larger than ever before — quality same.

Please remember that we can furnish Mouldings to order of any pattern and kind of wood desired, at short notice.

PRICES OF MOULDINGS, PER RUNNING FOOT.

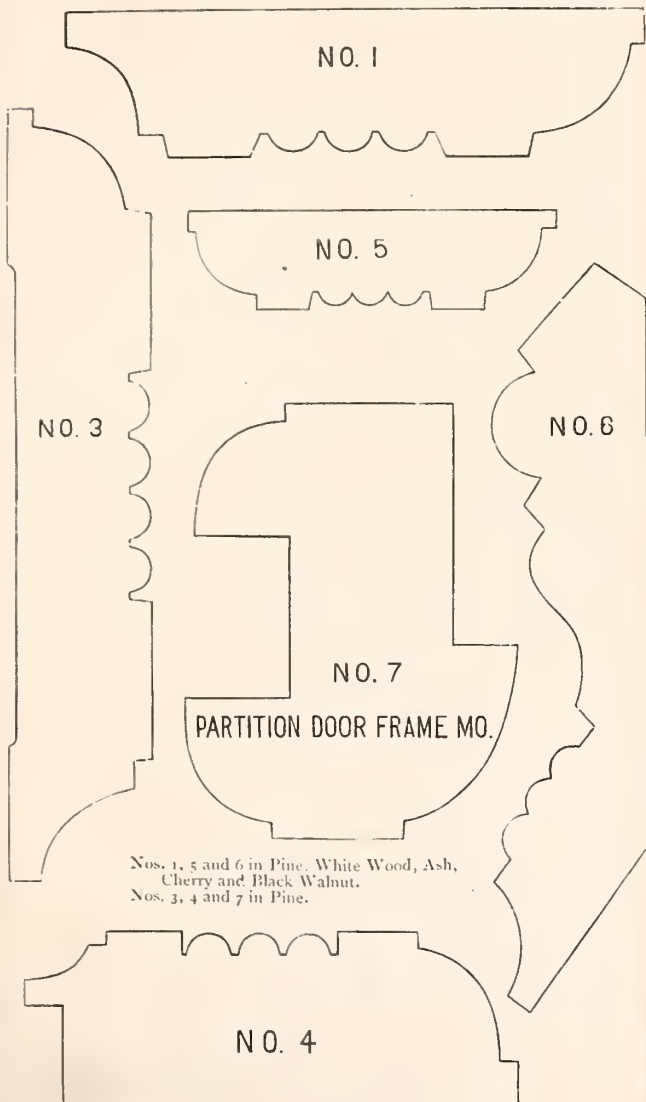

Soft Pine	-	-	-	-	-	1	cent an inch.
Hard Pine	-	-	-	-	-	1	" "
White Wood	-	-	-	-	-	1	" "
Ash	-	-	-	-	-	1½	" "
Maple	-	-	-	-	-	2	" "
Mahogany	-	-	-	-	-	4	" "
Butternut	-	-	-	-	-	2	" "
Black Walnut	-	-	-	-	-	2	" "
Cherry	-	-	-	-	-	2	" "

Width and thickness should both be reckoned.

All Mouldings *under* an inch reckoned same as inch except the Black Walnut, $\frac{3}{8} \times \frac{5}{8}$, and under, which are sold at 1½ cents per foot.

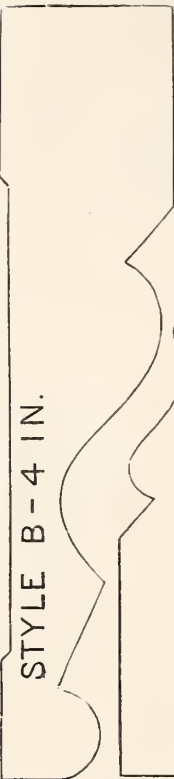

ALL OF ABOVE SUBJECT TO DISCOUNT.

We are across the street from the front end of the Boston and Maine Passenger Depot.

BRACKETS FOR SHELVES FROM 15 CENTS TO 75 CENTS PER PAIR.

Mouldings. See pages 4, 5, 6, 7, 12 and 13.

WHOLESALE AND RETAIL AGENTS
FOR THE PATENT
MARBLEOID SHELVES.
(MARBLEIZED WOOD.)

These Shelves are made of hard wood; and under a patent process are marbled or enamelled, giving a highly polished surface that cannot be distinguished from the most beautiful foreign marbles. They have the advantage over marble in various ways, such as the following:

- They will not spot or stain from kerosene oils or acids.
- They are less likely to damage by transportation.
- They can be screwed to brackets, thus securing them firmly.
- They are much less in weight.

The price is much less than of the marbleized Slate, and no one can give any reason why they are not in every respect as good, and in many respects much better, some of which you will see as above.

AMERICAN AND ITALIAN
MARBLE SHELVES

Constantly on hand, in lengths of 3 feet, $3\frac{1}{2}$ feet and 4 feet.
Odd lengths, etc., made to order.

Brackets Suitable for the above Shelves.

PRICE OF GUTTERS.

PINE. FIRST QUALITY.

No. 30	.	-	-	-	-	-	Size, $25\frac{1}{2}$ x 36.
" 29, same style	-	-	-	-	-	-	" 21 x 30.

Those Marbleoid Shelves will bear examination.

STAIR-WORK DEPARTMENT.

This line of goods, which are shown on the following pages, are of the same quality as sold by us for the past eleven years, and all are carried in stock—the Turns, Ease-offs, Ramps, etc., worked and warranted to fit plans given.

STAIR WORK FURNISHED TO ARCHITECTS' DESIGNS.

In ordering, please notice the following

DIRECTIONS.

1. Give number and sizes of Newel Post, Rail and Balusters: what Frame-post is wanted, if any. It would be well, when ordering, to give a sketch or drawing of stairs.

2. In ordering give us the exact rise and run of your stringer as sawed in the rough.

3. Give number of *Risers* instead of number of steps.

4. Length of Rail on gallery, measuring from face of gallery board, we allowing for all projections of nosings.

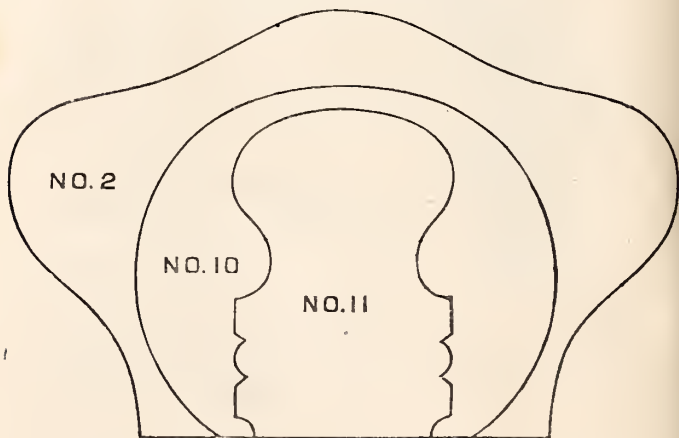

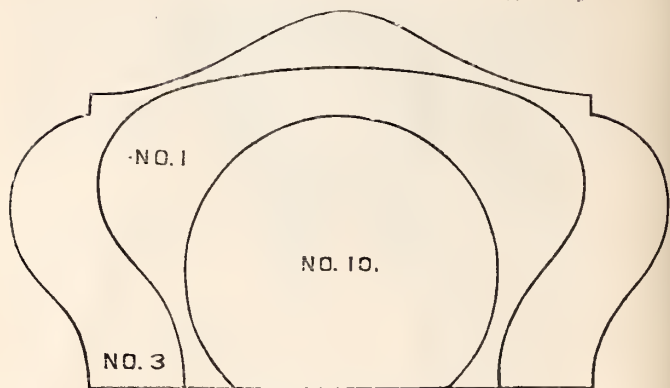

5. If the stairs are straight, with a continued rail, at landing, state how much the well-hole sets in back of the face of the top riser, giving the radius of well-hole; and if landing post is to be used state if well-hole is square, if not give the radius.

6. If the stairs are circular make a diagram, and give the exact width of each step on face stringer, as sawed, giving size of well-hole.

7. In all cases state whether the Rail is on right or left hand going up stairs, and which is wanted—Straight or Side Ease.

Keep this Catalogue safely, so that it can be found when you wish to order.

HAND RAIL.

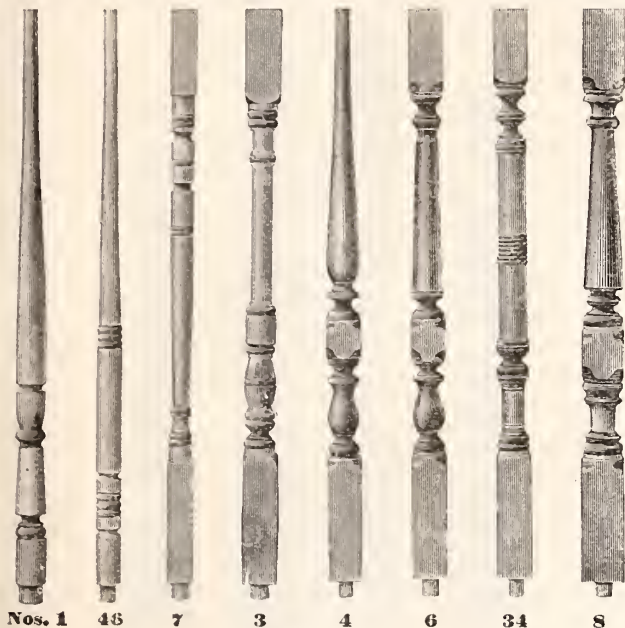

(See price-list for sizes, etc.)

RAIL WORKED TO ARCHITECTS' DESIGNS
IN ALL KINDS OF WOOD.

On Page 33 you will find directions for Ordering Rails.

FANCY TURNED BALUSTERS.

All Kinds of Stair Posts, Balusters, Table and Chair Legs, &c.

No. 55 Bristol Street,

J. ANDERSON.

BOSTON.

A. DICKEY.

RITCHIE'S Improved Corrugated Expanding Conductor.

Builders call for it, because it has the following advantages :

It does not burst from freezing.

Each 10-ft. length is a single piece, the short sections not being soldered, but locked together, so that they cannot break apart.

The coupling or slip-joint does not diminish the size of the pipe inside.

The galvanizing is free from dross or impurities.

The elbows and shoes would alone secure it preference.

RITCHIE'S SPIRAL PIPE.

The best round pipe made.

It is invaluable to use for ventilating the bowl of a water closet or hopper into a hot flue, thus carrying off all the odor when the closet is used.

LAMB & RITCHIE, Cambridgeport, Mass.

Makers also of Ritchie's Standard Speaking Tube.
